Burckhardt Compression acquires Indian compressor business including service center

Burckhardt Compression AG, Switzerland, has acquired the compressor division of Sulzer India Ltd., now Burckhardt Compression (India) Pvt. Ltd. The company has its own packaging and service centers for all reciprocating compressor related matters.

The transfer of the compressor division from Sulzer India to Burckhardt Compression (India) Pvt. Ltd., is a logical step on Sulzer's continued effort to focus on its core activities and Burckhardt Compression's effort to further expand geographically. Burckhardt Compression (India) Pvt. Ltd., Pune, will continue its operation under the leadership of the same management team at the same locations. The company continues to develop, design, manufacture, commission and service the current range of reciprocating compressors, trunk piston high pressure air and gas compressors.

Burckhardt Compression has played a major role in organizing and establishing the trunk piston compressor business in India since 1988 and has been serving customers on the Indian subcontinent for over a century.

Burckhardt Compression AG, Switzerland, is one of the world's largest manufacturers of reciprocating compressors with sales amounting to US \$ 125 Mio. and a global sales network. Burckhardt Compression has now 540 employees and over 40 agents around the world.

Burckhardt Compression is the only manufacturer of a complete series of labyrinth piston (Laby[®]), process gas, and hyper compressors for numerous applications. Their compressors are used in the field of oil refining, chemical and petrochemical industries, air separation, as well as gas transport and storage. Burckhardt Compression has a worldwide service network.
