Burckhardt Compression Opens Its Own Compressor Office in Korea

Burckhardt Compression AG, Switzerland, has opened its own compressor office in Korea, named Burckhardt Compression Korea Branch which is responsible for new and existing contracts with customers and contractors for all business with reciprocating compressors.

Burckhardt Compression has made a further step on its effort to further expand geographically with the opening of the Burckhardt Compression Korea Branch office. The managing director of the company, S.K. Lee, has represented the interests of Burckhardt Compression in the Korean market for the last 30 years. The office in Korea takes care of sales activities and contracts, and provides Customer Support Service for all reciprocating compressors. It also cultivates the contact to engineering contractors and customers. Furthermore, the company will seek local opportunities for the supply of auxiliaries.

It is important to Burckhardt Compression to have local presence. Burckhardt Compression has done business in Korea for many years and would like to establish itself under its own brand name.

Burckhardt Compression AG, Switzerland, is one of the world's largest manufacturers of reciprocating compressors with sales amounting to US \$ 125 Mio. and a global sales network. Burckhardt Compression has now 540 employees and over 40 agents around the world.

Burckhardt Compression AG is a world leader in reciprocating compressor technology and the only manufacturer of a complete series of Laby[®] (labyrinth piston), process gas, and hyper compressors for numerous applications. Their compressors are used in the field of oil refining, chemical and petrochemical industries, air separation, as well as gas transport and storage. Burckhardt Compression's worldwide service network provides the full range of customer support services; from supply of quality compressor components over valve service to complete plant overhauls, from engineering to the fulfillment of extensive modular service contracts.
